Problem–Solution Fit

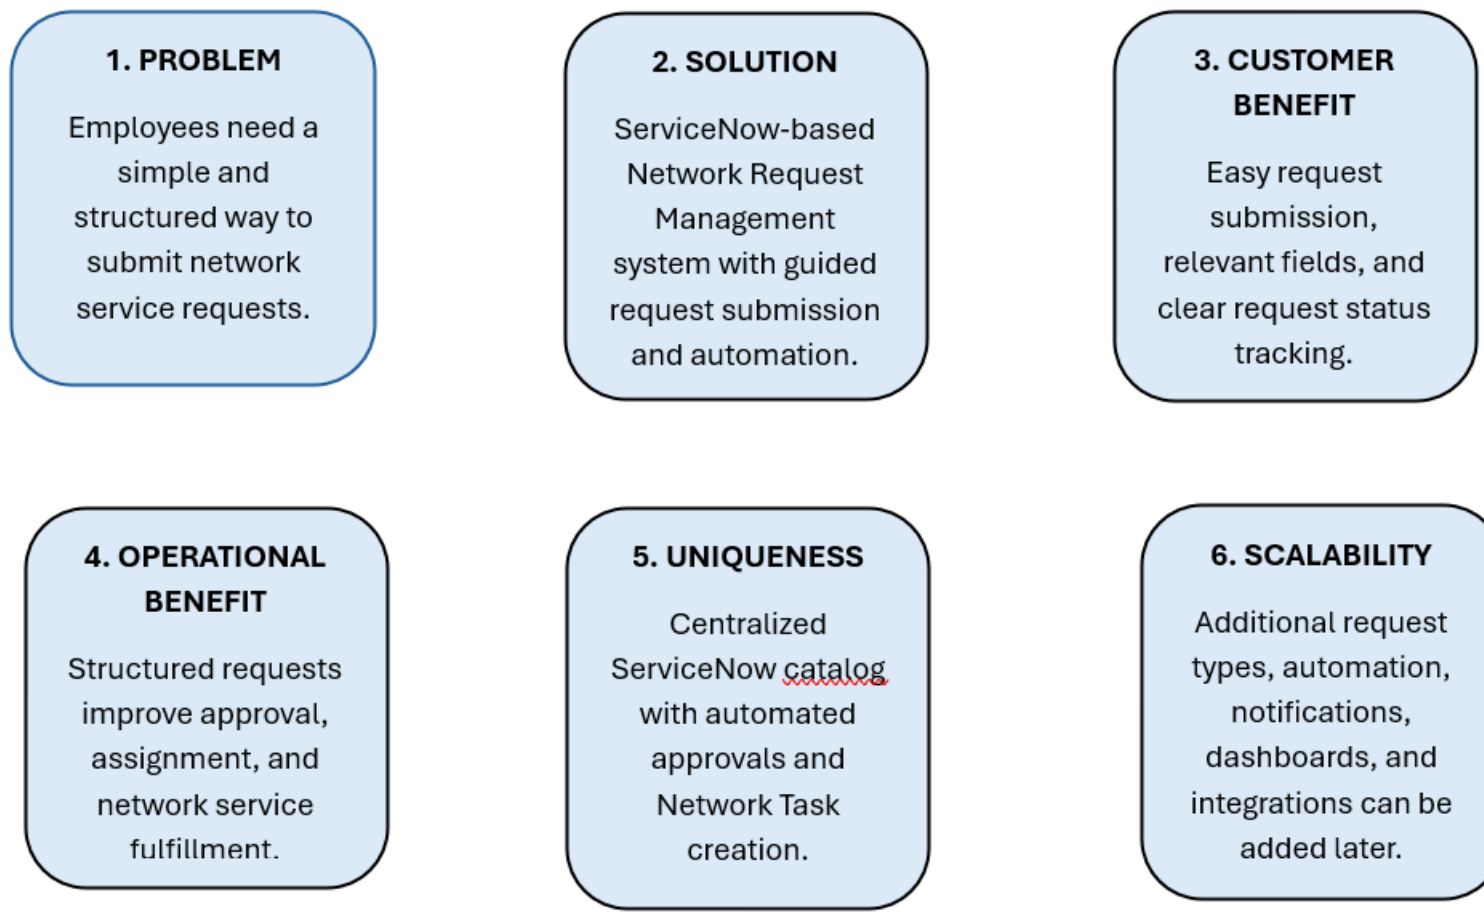

Figure 1: Problem–solution fit canvas for the Automated Network Request & Fulfillment Management project.

Parameter	Project Fit
Problem	Employees need a simple and structured way to submit network service requests.
Solution	A ServiceNow-based Network Request Management system with catalog-based request submission.
Customer Benefit	Guided request entry, relevant choices, and clear request status tracking.
Operational Benefit	Structured requests support efficient approvals, task assignment, and network service fulfillment.
Uniqueness	Combines ServiceNow Service Catalog with automated approvals and Network Task creation.
Scalability	Additional network request types, automation, notifications, dashboards, and integrations can be added later.
